

Thermometers

MT09 - dual reading digital (code 11-5030)

- Jumbo digital liquid display (55mm H x 80mm W)
- Measurement range: -50°C to +70°C
- Easy operation
- Easy installation
- Outside sensor 3m (10 ft) sensor wire
- High tech weather-proof sensor
- Includes battery (1.5 year life)
- Both inside and outside temp readings
- Resolution to 1/10 of a degree C

BG22 - hand held digital thermometer (code 11-5040)

- Includes probe
- Range: -50 to 13,000°C
- Accuracy: -50 to 0°C +/- 2°C
- Accuracy: 0 to 1000 °C +/- 0.5°C
- Accuracy: 1,000 to 1,300 °C +/- 0.8°C
- Reading rate: 2.5 times per second
- Input protection 60V or 24V RMS AC maximum input voltage or any combination of pins
- Input connector: accepts standard miniature type K thermocouple connector
- Weight: 210g

BG42 - infrared gun with laser (code 11-5050)

- Unit selectable °F/°C
- 4 digit LCD
- Backlight by LED
- Field of view: 8 : 1
- Laser spot target indicator
- Emissivity: 0.98
- Auto power off after 10 seconds
- Wide range of applications include: automotive, electrical and industrial maintenance, food safety, HVAC and other applications
